

## **Outreach: External/Industrial Relations Working Group**

The mission of the External/Industrial Relations Working Group (EIRWG) is to communicate the activities and promote the results of the QIN to organizations involved in, or who may be interested in clinical quantitative imaging, for the purpose of engaging these organizations to participate in the activities of the QIN, to exchange ideas and resources, and to achieve common goals collectively. The EIRWG will target industry, professional organization, federal government agencies, advocacy groups and clinical research organizations.
